### Statistical inference for degradation models (10:10 - 11:50)

time	[id] title	presenter
10:10	[20] Quantile Regression via Accelerated Destructive Degradation Modeling for Reliability Estimation	Ms LIM, Munwon Ms KIM, Gyu Ri
10:30	[6] Imperfect condition-based maintenance for a gamma degradation process in presence of unknown parameters	CORSET, Franck
10:50	[5] Statistical inference for a Wiener-based degradation model with imperfect maintenance actions under different observation schemes	LEROY, Margaux
11:10	[7] A goodness-of-fit test for homogeneous gamma process under a general sampling scheme	PAROISSIN, Christian
11:30	[19] Degradation Model Selection Using Depth Functions	Ms ASADI, Arefe
