

ENBIS Spring Meeting 2022

Friday, 20 May 2022

Reliability models (14:00 - 15:20)

time	[id] title	presenter
14:00	[28] Modeling Spatially Clustered Failure Time Data via Multivariate Gaussian Random Fields	ADEKPEDJOU, akim
14:20	[9] Phase-type models for competing risks	LINDQVIST, Bo Henry
14:40	[29] RELSYS : A new method based on damage physical-chemical processes with uncertainties and hazard.	DE REFFYE, Jerome
15:00	[12] Combining AI with Model based Design: battery State-of-charge estimator using Deep Learning	Dr GADO, Moubarak
