

ENBIS-24 Conference

Wednesday, 18 September 2024

AI in Industry 3 - Conference room 1 (10:05 - 11:05)

-Conveners: Efoevi Angelo Koudou

time	[id] title	presenter
10:05	[25] Estimating the heating duration of composite parts in the autoclave curing process using regression and artificial neural networks	YÜCEL, Tuğçe
10:25	[69] Process Analytics Technology (PAT) modeling using linear and non-linear convolutional approaches	RATO, Tiago
10:45	[93] Automatic Detection of Destruction and Freshness in Anchovy (<i>Engraulis ringens</i>) Using Informal Photos	RODRIGUEZ ANTICONA, Miguel Angel
