

ENBIS-25 Conference

Tuesday, 16 September 2025

Reliability and Safety (15:05 - 16:05)

time	[id] title	presenter
15:05	[30] Material Fatigue Testing and Analysis as a Measurement Instrument of the Failure-Free Load Level of Steel Specimens	HASELGRUBER, Nikolaus
15:25	[64] Condition-based maintenance policy for two-component balanced systems under dynamic environments	MAI, Yuxi
15:45	[87] A computational approach to handle variation and design margins aiming for a robust design	Dr KNUTS, Sören
