

ENBIS-25 Conference

Wednesday, 17 September 2025

Measurement Uncertainty: 1 (10:05 - 11:05)

time	[id] title	presenter
10:05	[20] Uncertainty evaluation for calibrating mobile sensors only using short collocation periods	KOK, Gertjan
10:25	[59] Statistical Monitoring of Gauge R&R in Real Time	KARAMAN, Mahmut Onur
10:45	[35] Bayesian multifidelity modeling to estimate thermal resistance of building walls	Dr DEMEYER, Séverine

Measurement Uncertainty: 2 (14:00 - 15:00)

time	[id] title	presenter
14:00	[72] A measure of expected agreement between independent classifiers	Prof. BASHKANSKY, Emil
14:20	[106] Surrogate Model Comparison for Uncertainty Quantification of Heating for Nuclear Fusion Plasma through Neutral Beam Injection	MAVROGIANNIS, Ioannis
