

# ENBIS Spring Meeting 2026

## Thursday, 28 May 2026

### Special Session: Maintenance in the Fusion Industry (15:30 - 18:05)

time	[id] title	presenter
15:30	[37] Always On, Always Safe: The engineering challenge of Continuous Operation in the IFMIF-DONES fusion neutron source	WEBER, Moisés
15:55	[38] Ensuring Reliability Across Generations: Maintenance and Asset Management at CERN	PERINIC, Goran
16:20	[39] Reliability Gets Hot at 100 Million Degrees: RAMI Challenges and Opportunities in Fusion Energy	SERRANO, Javier
16:45	[40] A Novel Approach to Reliability Data Selection and Integration for IFMIF-DONES Accelerators	Dr ACAL, Christian
17:10	[41] Ontology-Driven Natural Language Query System for Fusion Maintenance Planning	CARMONA MARTÍNEZ, Francisco
